

Four Months of Free Life Insurance?!?!

Description

For the first time ever, for a very limited time, and in response to the Covid-19 epidemic, you can get 4 months of totally free, fully underwritten, and guaranteed life insurance.

As of now until December 1st, certain insurers are actually offering 4 months of free premiums for new applications. Additionally, if you have pre-existing medical conditions, several companies currently have underwriting discount programs.

If you don't like needles and blood or don't quite squeak through on the medical side, for a fraction over standard underwritten rates you can get guaranteed issue products that are full placed in a matter of days. And what many people don't know is that today we're underwriting diabetes, cancer survivors, people with heart conditions, and past heart attacks. It may cost a little more but an incredible number of people who couldn't even get insurance 5 or 10 years ago now qualify for insurance.
